

Natalyre Empire State Flag Guidelines

The state flag has to be in a 3:5 ratio. The flag must prominently feature The Natalyre Empire's Coat of Arms. The flag can only use colors from The Natalyre Empire's official flag. The state flag can include a state symbol if approved, the state symbol bypasses any color limits that have been said in this document.

In order for the state's flag to be official, it has to be personally approved by the Emperor. If it is accepted, the flag and state symbol can be used for any state matters that require the use of a flag or state symbol. For example, state fairs, local elections, etc.

Approved by,

A stylized, handwritten signature in black ink. The signature appears to be 'Natal' followed by a flourish.

Emperor Natalius I
